

Expressions of Flesh

Echoes Of Eternity

If we are eternal souls why should we fear death?
Beings of eternity expressed in the flesh
From dust we are born, to dust we regress
Souls of infinity expressed in the flesh Source of all creation within your spirit lies
Sings an eternal song, a hymn that never dies
Not created nor destroyed, the end is not the end
When you leave this mortal form life begins again Life begins again, the end is not the end
Life begins again, the end is not the end
Life begins again, the end is not the end
Again Source of all creation within your spirit lies
Sings an eternal song, a hymn that never dies
