From Here

Bil Bless

My child I?ve hoped and I?ve prayed for this very day
Since you were just a little one
And oh how my heart swells with pride
As I watch the man that you?ve become
But this life offers no guarantees
And though my time on this earth had to end
I?m sure that your heart would know peace
If you could just see where I am
From here the race has been run and love?s already won
I see clearly the end and the start
From here I?m cheering you on
So live out each breath with all that you?ve got
Oh, and know until I hold you close
I?ll be holding you dear in my heart from here
I?ve seen your tears as you?ve waited alone
Longing for that special one
And now all the waiting is done
As you gaze into her eyes seeing the reflection of love
Life?s road may seem rough up ahead
And from now you see only in part
So hold onto each other and know
That there is an end to the dark
From here the race has been run and love?s already won
I see clearly the end and the start
From here I?m cheering you on
So live out each breath with all that you?ve got
Oh, and know until I hold you close
I?ll be holding you dear in my heart from here
Heaven is calling and my heart keeps longing
Looking so forward to the day
When we?ll be together forever in eternity
Just you wait and see
From here the race has been run and love?s already won
I see clearly the end and the start
From here I?m cheering you on
So live out each breath with all that you?ve got
Oh, and know until I hold you close
I?ll be holding you dear in my heart from here, yeah, from here
