

Camellia

KÄñig

Summertime

You do what you want

Oh, the garden go so high

And the air was full of leadEveryday was just like before

Not a dark cloud in the sky

Just a lid under your skinHey, imagine it's alrightBaby blue

Don't make a sound

You should listen for the end

'Cause it's right over the hillDon't you cry, you won't feel no hurt

And just close your baby eyes

And go wherever you pleaseHallelujah

Hallelujah

Hallelujah
