It Won't Die

Madcap

Get that out of your head
Is what they told me now
Tried to clip my wings
Keep my feet on the groundBut I got something
They could never have
I got heart
I got love tonightAnd it won't die
No matter what they do
It won't die
No matter what they say
It won't die
No matter what they doTake your phony ideals
And get 'em out of my face
Because I do what I want
And not what others say'Cause I got something
They could never have
I got heart
I got love tonightIt won't die
No matter what they do
It won't die
No matter what they say
It won't die
No matter what they doGet up get out
They said to me
There ain't no sense
In chasing dreamsStopI got something
They could never have
I got something
They could never haveI got something
They could never have
I got heart
I got faith tonightIt won't die
No matter what they do
It won't die
No matter what they say
It won't die
No matter what they doIt won't die
No matter what they do
