

Love Child

Deep Purple

You can walk through fire
Make the north wind blow
Squeeze 'n' tease me, honey
When you shake your body You move my soul, my, yeah Let me be your lover
Won't you let me be your child?
Take me through your universe
You know that when you smile You drive me wild, oh, my baby Love child
Driving me wild
Love child
Always teasin' me You can ride your pony
Daydream in fairy tales
All I know is I need more
When I see you dance the seven veils Oh, baby, let me shake it
You got me shakin', babe
You got me shakin', baby You can walk through fire
Make the north wind blow
Squeeze 'n' tease me, honey
When you shake your body You move my soul, oh, yeah
