Feels Good

Wax

Take everything that I own
My destination's unknown
If I started to yell
Could you even tell
Would it do any good
Mr. Misunderstood
I'm not asking for change
I know it sounds strange
But it feels kinda good
Feeling this bad
I'm invincible
At my all-time low
And it feels good
Yeah feeling this bad
I'm at the end of my rope
I just remembered a joke
Have you heard the one
About the one I've become
