

# Another Reason

## Darkest Hour

Keep your eyes on the trigger  
And your mind on the ecstasy  
Just caress the emptiness  
Sit back and let it bleedWe need salvation  
We need another God on the TV screen  
We need to believeWe need salvation  
We need another God on the TV screen  
We need to believeFill your pockets with others casualties  
Just a talk show, leper prophecy  
Just caress the emptiness  
Sit back and let it bleedWe need salvation  
We need another God on the TV screen  
We need to believeWe need salvation  
We need another God on the TV screen  
We need to believeCan you show me happiness?  
Can you show me the other side of the prison chain?  
Can you show me prime time addiction?  
Sadistic delusionWe need salvation  
We need another God on the TV screen  
We need to believeWe need salvation  
We need another God on the TV screen  
We need to believeOur father, our sponsor  
Our cheep plastic figure  
Our father, our sponsor  
Can you spare one more dollar?Our father, our sponsor  
Our cheep plastic figure  
Our father, our sponsor  
Can you spare one more dollar?
