Over My Head

Ray Davies

Wakin' up, feeling rough
Totally stressed
Every day it's a dead time
Step by stepHit a wall, took a fall
To a new depth
Count to ten, focusin'
Take a deep breathIn a world that is close to breakin'
I thought that you were my friend
In a world that is full of hatin'
And I'm about to descend
I just smile and pretendI'm a million miles away from it all
And let it go right over my head
Let 'em chase and the winner take all
And let it go right over my headOver my head, yeah
Over my head, ooh
Over my headEverywhere, everyone
Questioning me
Are you ill? Are you well?
Do you like being free?Didn't know you were close to breaking
So you thought it should end
Left it all for a new location
So you could start up again
So keep smilin' till thenRight now, I want some peace of mind
So let it go right over my head
Just want to give myself a little more time
And every single word that you saidWent over my head, yeah
Over my head, ooh
Over my headLittle girl, I was so mistaken
Thought that you were my friend
In a world that is full of hatin'
I'm about to descendDidn't know you were close to breakin'
So you thought it should end
Left it all for a new location
So you could start up again
So keep smilin' till thenI'm a million miles away from it all
And let it go right over my head
Let 'em chase and the winner take all
And let it go right over my headRight now, I want some peace of mind
So let it go right over my head

Just want to give myself a little more time
And every single word that you saidWent over my head, yeah
Over my head, ooh
Over my headClose the door, let me please
Get to my bed
I wanna take stock, see my life
In perspectiveTomorrow, I'll be back in the race, till then
Live and let live
So let all the anger pass me byOver my head, ooh
Over my head, ooh
Over my head
