

# Levitation

## Circa Zero

Dark clouds storm your skyline mind  
Stare down the barrel of a firing line  
Ton of passions at the bottom of your hill  
Push your piano out the window sill  
Why ? It won't fly  
Concrete boots at the bottom of the bay  
Mood on a canvas in shades of grey  
Heavy heart sunken by regret  
Head dragged under by the things you said  
Why ? It won't fly  
I wanna lift it up  
I wanna lift it up  
I wanna lift it up  
Levitation  
Caught under lies you tell yourself  
Drowning under waves of guilt  
Best laid plans buried underground  
All you ever wanted under ten million pounds  
Why ? it won't fly  
I wanna lift it up  
I wanna lift it up  
I wanna lift it up  
Levitation  
I wanna lift it up  
I wanna lift it up  
I wanna lift it up  
Levitation  
Why ? it won't fly  
Why ? it won't fly  
I wanna lift it up  
I wanna lift it up  
I wanna lift it up  
Levitation  
Levitation  
Levitation  
Levitation
