

# Wasting

## The Soft Moon

Wasting Time

Wasting Time

Wasting Time

Wasting Time Don't stop the world, you know you can't, you have to live what's only real.

Can't stop the world and start again,

you have to feel what's only real.

You've got to take life by the hand

let the substance close you in,

hope to one day come alive.

You have to take life by the hand,

hope to one day understand. Wasting Time

Wasting Time

Wasting... Don't stop the world, you know you can't, you have to live what's only real.

Can't stop the world and start again,

you have to feel what's only real.
