Ulla

Steve Kuhn

Swirling horses throw you high
Carried on their tales the tide
Sailing on the seven seas
Suns & seven winds were we blindedTake me where the camphor grows
Where the moon and freedom sigh
Caribou are crossing out
Mailing elk and where we found you a sunsetSailors sail on all night all day
I'm not lost I'm wandering your way
I know you're waiting
Carry me thereFloat on glass a mirror hot
With the universe above
Try to find a line connect
With a world that make no sense
I've a feelingStream you babble in a rush
Busy river flow and wind
Always ask the lake it knows
Always ask the lake you'll get all the answersSailors sail on all night all day
I'm not lost I'm wandering your wayI know you're waiting
Carry me there
