

# Show Me

## Stereomud

When will I be home  
Is what you want to know  
But all I can say is  
I don't know when  
Can't see to find my way  
It's killing me slowlyHow will I be home  
Is what you want to know  
But all you can say is  
You don't know when  
Can't see to find my way  
It's killing me slowlyPlease don't forget me  
I am out here trying to find youShow me some kind of light  
I can barely see it  
Don't wanna think that it's hopeless  
So show me some kind of light  
I can barely see it  
Don't wanna think I'm lostEvery time I left  
It was so far away  
No, I never thought  
That it would be like this  
Wish I could thank you  
For the patience that you gave meIt's all I  
I can do  
So don't give up on me  
Hope you know  
It's your faith  
That's guiding mePlease don't forget me  
I am out here trying to find youShow me some kind of light  
I can barely see it  
Don't wanna think that it's hopeless  
So show me some kind of light  
I can barely see it  
Don't wanna think I'm lostPlease don't forget meShow me some kind of light  
I can barely see it  
Don't wanna think that it's hopeless  
So show me some kind of light  
I can barely see it  
Don't wanna think I'm lostI'm lostIf I'm out here without your light  
I will never find my way home
