

Animal

Tim Chaisson

Got a terrible feeling? Got a light I can't contain
It's too much most days
Locked up in my ribcage

Uncivilized nature
Deep inside everyone you see
If they try to tame ya? Turn around and show your teeth

My heart is animal
No I don't love my enemies
It's wild and beautiful
But if you came to test me
Oh darling, you better watch out
My heart is an animal

You don't know what I'm thinking
I got a universe in my head
And anyone who's ever crossed me
Has seen these rivers runnin' red
?You think you're coming up behind me
I can feel the pressure change
You're standing on my territory
I wouldn't call this your first mistake
