Skull X

Primal Scream

The sky's black with locusts
My eyes are burning stars
The a mountain of gold teeth
In every bank vault in this world
Wanna try and steal my face
My body and my soul?
Ridden on a bed of nails
Walkin' into walls
Do it baby, do it again
Do it baby
Come on, baby, do it again
Do it baby, do it again
Do it baby
Come on, baby, do it again
Do I drown in my streams?
Do I kill you in my dreams?
Do I draw a knife across your throat?
Is your mouth an open grave?
Will I fall upon your blade
Are those needles in your eyes
The blood of Jesus?
Do it baby, do it again
Do it baby
Come on, baby, do it again
Do it baby, do it again
Do it baby
Come on, baby, do it again
Another teenage suicide
Slit your wrists and laugh
When boredom kills, shot morphine pills
Be faithful unto death
In every home
A rapist are killers family men
Why do children hate their parents
Keep a shotgun underneath your bed
Do it baby, do it again
Do it baby
Come on baby, do it again

Do it baby, do it again

Do it baby
Come on baby, do it again
So fly the skull and crossbones
Burns the union jack
Hang on to your eyeballs
Paint the daytime black
Choose your best friends carefully
Don't betray your code
Live outside society
Stay inside you soul
Do it baby, do it again
Do it baby
Come on, baby, do it again
Do it baby, do it again
Do it baby
Come on, baby, do it again
Don't you find hard to laugh
When your mouth is full of broken glass?
Thoughts mutate to locusts
Skull exploding
Don't you find hard to laugh
When your mouth is full of broken glass?
Thoughts mutate to locusts
Skull exploding
Do it baby, do it again
Do it baby
Come on baby, do it again
Do it baby, do it again
Do it baby
Come on, baby, do it again
Do it again
Come on, baby, do it again
Do it again,
Come on, baby, do it again
Do it again
Come on, baby, do it again
Do it again
Come on, baby, do it again
