

Better Part of Me (New Shorter Version)

Course of Nature

Something says to me don't be afraid
But if I don't worry I'll surely slip away
I need to speak to you, hear what you say
But if I breathe too hard I think I'll go insane
There's a part of me so insecure
Of all that I could have
And all that I've gone through
If there could be a way through a better design
I'd probably screw it up and let it slip away
Well I wonder if I stayed here
Would you become a better part of me
I can say now that you changed me
And I've become a better part of me
I am the strongest I've ever been
The very thought of you can't even comprehend
The safest bet for me is to focus hard
And try to face myself
Can't take it anymore
Well I wonder if I stayed here
Would you become a better part of me
I can say now that you changed me
And I've become a better part of me
Well I wonder if I stayed here
Would you become a better part of me
I can say now that you changed me
And I've become a better part of me
I hope I'm everything that I need to be
You are my everything, so I'll just stay
Well I wonder if I stayed here
Would you become a better part of me
I can say now that you changed me
And I've become a better part of me
Well I wonder if I stayed here
Would you become a better part of me
I can say now that you changed me
And I've become a better part of me
A better part of me
