Jennifer Falling Down

The Nields

Mmm, a message to all my friends
Mmm, I've fallen down againPlease send help
Please send your horses and your men
Please send your very best doctors
And lawyers to put me together againI've spent my whole life falling down
From the stairs I climbed to the boys I found
Now everybody knows the sound
Of Jennifer falling downI wanna be a big girl
And a little girl for you to holdDon't get mad
Don't roll your eyes and laugh
I've been twirling around in circles
To see which was my better halfI've spent my whole life falling down
From the stairs I climbed to the boys I found
Now everybody knows the sound
Of Jennifer falling downI had no place left to go, no place left to go
No place left to go, no place left to go
No place left to go, no place left to go
So I went downI've spent my whole life falling down
From the stairs I climbed to the boys I found
Now everybody knows the sound
Of Jennifer falling downI've spent my whole life falling down
From the stairs I climbed to the boys I found
Now everybody knows the sound
Of Jennifer falling down
