

Over In Love (Instrumental)

[Tracy Chapman](#)

Cold wind blows
Shivers loose
Hard rain
To my skin soaked through
So over in love with you
I don't even care Sky turns grey
Black and blue
Fall on me
I can't be moved So over in love with you
I don't even care Hot sun shines
And lays bare
Shadows cross cut
Heavy air So over in love with you
I don't even care The tide that washes in and out
Reveals a heart
And face worn new So over in love with you
I don't even care I don't even care
I don't even care
I don't even care
