

# Get Free

## Humming Bird

Never got love from a government man  
Heading downstream till the levee gives in  
    What can i do to get the money  
    We ain't go the money, we ain't gettin out  
Heading downstream till the levee gives in  
    And my dreams are wearin' thin  
    All i need's relief  
    I need i need some sympathy  
        Look at me  
        I just can't believe  
        What they've done to me  
        We could never get free  
    I just wanna be  
        Look at me  
        I just can't believe  
        What they've done to me  
        We could never get free  
    I just wanna be  
        I just wanna dream  
        All of my life been wadin in  
        Water so deep now we got to swim  
        Wonder will it ever end  
    How long how long till we have a friend  
    Comin down, feelin like a battery hen  
    Waves won't break till the tide comes in  
        What will i do in the sunrise  
        What will i do without my dreams  
            Look at me  
            I just can't believe  
            What they've done to me  
            We could never get free  
        I just wanna be  
            Look at me  
            I just can't believe  
            What they've done to me  
            We could never get free  
        I just wanna be  
            I just wanna dream  
            We're all together in the same boat

I know you, you know me  
Baby, you know me  
We're all together in the same boat  
I know you, you know me  
Baby, you know me  
We're all together in the same boat  
I know you, you know me  
Baby, you know me  
I just wanna dream
