

Kick In the Teeth

Papa Roach

We live in a cold dark world with venom in its veins
You can spit it in my face but I know I'll be okay
It's on the attack, it's a war, it's a game
A ball and chain, chew my arm off to get away Don't fight it or deny it, invite it
'Cause when it feels like a kick in the teeth I can take it
Throw your stones and you won't see me break it
Say what you want, take your shots
You're setting me free with one more kick in the teeth Na, na, na, na, na
(Kick in the teeth)
Na, na, na, na, na I gotta say thanks 'cause you kick me when I'm down
I'm bleeding out the mouth, I hope you know I'm stronger now
I'm taking the hate, I'm turning it all around
I won't go down 'til I'm six feet underground Don't fight it or deny it, invite it
'Cause when it feels like a kick in the teeth, I can take it
Throw your stones and you won't see me break it
Say what you want, take your shots
You're setting me free with one more kick in the teeth Na, na, na, na, na
(Kick in the teeth)
Na, na, na, na, na What doesn't kill me only
Will make me stronger in my head, in my head 'Cause when it feels like a kick in the teeth, I can take it
Throw your stones and you won't see me break it
Say what you want, take your shots
You're setting me free with one more kick in the teeth Na, na, na, na, na
(Kick in the teeth)
Na, na, na, na, na Say what you want, take your shots
You're setting me free with one more kick in the teeth Na, na, na, na, na
(Kick in the teeth)
Na, na, na, na, na
(Kick in the teeth) Na, na, na, na, na
(Kick in the teeth)
Na, na, na, na, na
