

# Ordinary

## Barenaked Ladies

Don't you know we lost?  
Sunk so low, we just called it off  
How an ordinary moment gets tossed  
More than ordinary woman's the cost Thought I understood  
Fought to buy the whole neighborhood  
You ought to try, I told you so, it feels good  
Bought it high and sold as low as I could Believe me, believe me  
Believe me, believe me  
It's come undone, done  
It's come undone, done Have another look, another look around  
Have another look around  
Have another look, another look around  
Have another look around I can't stay too long  
Can only play a handful of songs  
How a melody can make up your mind  
Take a memory and leave it behind Believe me, believe me  
Believe me, believe me  
It's come undone, done  
It's come undone, done It's come undone  
(Have another look, another look around)  
Done  
(Have another look around) It's come undone  
(Have another look, another look around)  
Done  
(Have another look around)
