

# Gonna Get There Someday

[Dierks Bentley](#)

Well it's been a year and there so much to tell  
Been doing alright in spite of myself  
Just wish I could stop feeling bad when I pray  
But I know I'm gonna get there somedayGot that job I was dreaming about  
Sometimes it's tough traveling around  
But who I wanna be still seems so far away  
But I know I'm gonna get there somedayGlad I told you all I meant to  
While I had the chance  
'Cause every moment I had with you  
Made me who I amBy the way, I met someone new  
And wouldn't you know, she's a whole lot like you  
Still I ain't ready to settle down in one place  
But I know I'm gonna get there somedayWell I guess I'll be movin' on  
I'll just leave these daisies by your stone  
And Momma, I still miss you every day  
But I know I'm gonna get there somedayWhen that'll be, guess only God can say  
But I know I'm gonna get there someday
