See Thru Eyes

Active Child

She threw her arms around my neck
Whispered softly in a foreign tongue
Her eyes were see through
Tell me your secrets
We drove my car into the night
Turned the corner and the streets were wet
I couldn't see you
Tell me your secrets
Tonight
Tonight
When we awoke the road was dry
Her body glistened in the morning light
And now I see you
I know your secrets
Tonight
Tonight
I know your secrets
Tonight
Tonight
