

# Dance All Night

## Ryan Adams & The Cardinals

She ain't lonely now  
See her shuffle across the floor  
Yeah, she's happier now  
See her smile and say "come on" Let's dance all night  
Let's dance all night  
Dance all night  
Yeah, I think she'll be alright I ain't lonely now  
Yeah, I got someone I love  
Someone I think about  
Someone for me to take care of  
Dance all night  
Dance all night  
Dance all night  
Yeah, I think I'll be alright She ain't lonely now  
See her shuffle across the floor  
Yeah, she's happier now  
See her smile and say "come on"  
Let's dance all night  
Let's dance all night  
Dance all night  
I think she'll be alright
