# Bleed

## Hot Chelle Rae

I feel like Im drowning in ice water
My lips have turned a shade of blue
Im frozen with this fear that you may disappear
Before Ive given you the truth
I bleed my heart out on this paper for you
So you can see what I cant say
Im dying here (Im dying here)
Cause I cant say what I want to
I bleed my heart out just for you
Ive always dreamed about this moment
And now its here and Ive turned to stone
I stand here petrified
As I look in your eyes
My head is ready to explode
I bleed my heart out on this paper for you
So you can see what I cant say
Im dying here
Cause I cant say what I want to
I bleed my heart out just for you
And its all here in black and white and red
For all the times those words were never said
I bleed my heart out on this paper for you
So you can see what I cant say
Im dying here
Cause I can't say what I want to
I bleed my heart out just for you
I bleed my heart out just for you
