

What a Life

The Bangles

Another crummy perfect day
Waking up in L.A.
Never thought that I would stay so long
Dusty leaves and bees are hummin
Ten day says theres no rain comin
The sun is shining cause
It nearly always does
What else can I say
What a life
What a life
What a life we lead
Im just layin here
So wake me when its time to leave
Orange sky and ashes falling
I cant get home the car is stalling
How lucky can I get?
I am so fortunate
What a Life
What a Life
What a Life we lead
Im just waitin here
So wake me when its time to leave
Yeah, wake me when its time to leave
Well, its another perfect day
I guess I wouldnt have it any other way.
