

# All Year (feat. Preston Harris)

## Terrace Martin

Ooh ain't nothing better when the lights are off  
And all the colors shine throw the door  
Anticipate the day brake  
All night I'mma drop, under the pine forest  
God been so good on you, I know it  
All night,  
Walk down the hole, stream as the polly  
Leave me to all of the love and candy cake  
I look at their frequency over take me every time  
Uuh I feel your light flaming long enough  
Bring me your smile under the Mazel Tov  
Come make a movement, we'll remember every time his Christmas  
I want you right here into my arms  
Close to my heart  
Uuh this Christmas, I want you right here  
So wherever you know, you should always know  
That's all I want all year  
So wherever you go you should always know,  
Santa man and children's grand'  
When we hala now carrying it  
Let me take you alone again  
Grab my hand, let's begging  
When that cause will bring us here  
For the left all the language  
It's the kind of joy you need to ear  
So feel me up  
No I don't need no fancy things no. No  
No turns and down or golden rings  
It's a very simple need  
Just to give all the love you bring  
This Christmas I want you right here into my arms  
Close to my heart,  
Oo this Christmas I want you right here  
So wherever you go, you should always know  
That's what I want all year  
The seasons might change but nothing stays the same  
And there's not for us to make  
I know you ready for you  
I've been waiting for it

To unwrap any on you  
I can't wait no more  
Let me inside, let me inside  
You put my name on it  
I know you ready for you  
I've been waiting for it  
To unwrap any on you  
I can't wait no more  
This Christmas I want you right here into my arms  
Close to my heart
