

Something Strange (feat. Haley Reinhart)

Vicetone

[Verse 1]

I looked over my shoulder
Saw you walking through the door
But you're not the same baby that I once knew
It's like I don't know you anymore[Verse 2]
Feel a haze washing over you and me
Look for the light inside the clouds
Sometimes the rain leaves as quickly as it's storming
Looks like the worst is over now

[Chorus]

Something strange in me
Something strange in me
Something strange in me
I don't know you anymore
Something strange in me
Something strange in me
Something strange in me I don't know you anymore[Drop]
Ooh, I don't know you anymore
Ooh, I don't know you anymore[Verse 3]
It's always hard to say goodbye
To the one person that's on your mind
But I can't waste my time trying to make you see
You can't take back another lie

[Verse 4]

You promised me long ago
Although I try my best to believe
You said your sorry ways would disappear
Now it's time for me to leave[Chorus]
Something strange in me
Something strange in me
Something strange in me
I don't know you anymore
Something strange in me
Something strange in me
Something strange in me I don't know you anymore[Drop]
Ooh, I don't know you anymore
Ooh, I don't know you anymore[Bridge]
(Something strange in me)
(Something strange in me)[Chorus]

Something strange in me
Something strange in me
Something strange in me
I don't know you anymore
Something strange in me
Something strange in me
Something strange in me I don't know you anymore[Drop]
Ooh, I don't know you anymore
Ooh, I don't know you anymore
