

Life Ain't So Shitty

Blind Melon

Life ain't so shitty

There's a lot that you can be

And ain't it a pity

But it's alright to smile back at meAnd if we both go there we can count on problems

That we might not necessarily come in contact with

Hey wake up, do you know where I'm coming' from?Life ain't so shitty

There's a lot that you can be

And ain't it a pity

And it's alright to smile back at meAnd if we both go there we can count on problems

That I might not necessarily come in contact with

You don't know where I'm coming' from
