

# Double Visions

## Mini Mansions

Peculiar fucking in the player's ball  
Well I've been known to fall  
Well I've been down  
Taste your sweat and I prepare to fly  
From my nine to five  
Well I been down Making babies in a parody  
Of Adam's family  
Well I've been down  
Double visions that I can't recall  
Let's kick it down the hall  
Well I've been down Lovie Dovie give me fantasies  
Have I been on my knees  
Well I've been down  
Higher natives we can entertain  
We're necking on the plane  
'Cause I've been down Undertakers at the rendezvous  
What does that mean to you?  
Well I've been down  
Hitch a ride up to the hit parade  
We're stiffing meter maids  
Well I've been down All that you tell me  
Will you follow me home?  
Are you all that you tell me?  
Leave the body alone  
Are you all that you tell me?  
Will you follow me home?  
Are you all that you tell me?  
Love's a mind of its own... See ya later from my majesties  
I never wanted to be down
