

# Friendly Fire

## Kensington

Friendly fire on the horizon  
I'll stay close behind decide which side are you on  
Whose side are you on?  
I'll stay put and I'll disguise my treachery  
With more white lies  
Whose side are you on?  
Whose side am I on?So it seems  
The hatchet in our hands is used immediately  
To cut off all loose ends  
Just to breathe easily  
No time for taking chances, we need certainty  
Our fingers through the fence and we shallDisappear from the face of the earth  
We don't want you here  
Or your voices to be heard  
I'll disappear from the face of the earth  
Meanwhile, we will watch theFriendly fire on the horizon  
I'll stay close behind decide which side are you on  
Whose side are you on?  
I'll stay put and I'll disguise my treachery  
With more white lies  
Whose side are you on?  
Whose side am I on?It seems to me  
The ever-present restless lack of honesty  
Is leading us into a state of agony  
No time for taking turns we're simultaneously  
Pointing out our friends and foesDisappear from the face of the earth  
We don't want you here  
Or your voices to be heard  
I'll disappear from the face of the earth  
Meanwhile, we will watch theFire (4x)
