

# Ten Fingers Isn't Quite Enough

## Halifax

my arms theyre getting tired  
from holding this relationship up  
ten fingers isnt quite enough  
your heart is getting heavy  
your on my knees  
i need another pair  
who are you  
who are you to care  
who are you to care[Chorus]  
this could mean goodbye for us  
this might be no tomorrow  
maybe another life will save your heart  
this could mean goodbye for us  
this might be no tomorrow  
maybe another life will save your heartand now we'll burn  
we'll both burn like  
we'll both burn like we see  
we'll see the other side  
another life  
another day  
another chance for me to care  
who are you to care[Chorus]the world is falling apart  
the world is falling apart  
the world is falling apart  
the world is falling apart  
the world is falling apart
