Afraid

Nelly Furtado

What they say, what they say, what they say

What they say, what they say You speak out all you feel is defiance

All you need is some self-reliance

Cause this world is gonna always try usAnd all you wanted was to run for cover

Well here's looking to yourself and no other

We're all searching for that special something

And we keep on runningWe all have the choice to take the lead or follow

I want to feel the light shine on meSo afraid of what people might say

But that's okay cause you're only human

So afraid of what people might say

But that's okay you'll soon get strong enoughSo afraid of what people might say

But that's okay cause you're only human

So afraid of what people might say

You're going to break so please don't do itYou wanna spread your wings but you're not sure

Don't wanna leave your comforts, wanna find a cure

We're afraid of who we see in the mirror

We wanna let go but it feels too pureWho wants to be alone in this world?

You look around and all you see is hurt

But the light it always finds us

If we move with a little trustWe all have the choice to take the lead or follow

I want to feel the light shine on meSo afraid of what people might say

But that's okay cause you're only human

So afraid of what people might say

But that's okay you'll soon get strong enoughSo afraid of what people might say

But that's okay cause you're only human

So afraid of what people might say

You're going to break so please don't do it A diamond don't define what shine is

I don't need a Rolex to know what the time is

You got yours let me find what mines is

I'm a survivor look how strong my mind is I stand on my own it's all me

Regardless of whatever they call me

I'm a leader not a follower

And I'd rather be paid and popular

Ride homie, get your dollars up

We're in the belly of the beast that already swallowed usIt's the end of the world and we know it

It's the end of the world

And we know itSo afraid of what people might say

But that's okay cause you're only human

So afraid of what people might say

But that's okay you'll soon get strong enoughSo afraid of what people might say
But that's okay cause you're only human
So afraid of what people might say
You're going to break so please don't do itSo afraid of what people might say
So afraid of what people might say
So afraid of what people might say
So afraid of what people might say
But that's okay cause you're only human
So afraid of what people might say
But that's okay you'll soon get strong enoughSo afraid of what people might say
But that's okay cause you're only human
So afraid of what people might say
But that's okay cause you're only human
So afraid of what people might say
You're going to break so please don't do it
