Save Me

Muse

Save me from my superstitions
Now I'm free from this old condition
Wait just a while
And I'll greet you with a smile
Hold me cos I'm sure I hated
Promises they are overrated
Wait just a while
While I'm drowning in denial
Turn me into someone like you
Find a place that we can go to

Run away and take me with you
Don't let go I need your rescue
Watch me cos I'm on a mission
Hold me back so I'm forced to listen
Don't let me go
Cos I'm nothing without you
Turn me into someone like you
Find a place that we can go to
Run away and take me with you
Don't let go I need your rescue
