

Save Me

The Glass Child

VERSE

Throw me out at sea
cut the ropes and bring the tide
I'll make it right, with all my pride
Don't let them see you cry

Hold it up don't let them down
Another night, to get it right
PRE-CHORUS

The moon lit up, for another shot
Can never close my eyes
'cause my time is passing by
but I'll go on for sure
Never needed more than this
But this path is getting tiring
CHORUS

Can you save me?
The pressure got too tight
Now I'm fallen to the ground
Please someone save me
I've given all I've got
think I'm losing all my strides
But I'll go on for sure, never needed more than this
But this heart is getting tired

Can you save
I'm holding on to you
Now I'm holding on with all I've got
VERSE

I'm burying my pride
Drown in out, another bottle
and I can't close my eyes at night
I keep watering a flower that already had its time

But I'm too proud to throw it out
PRE-CHORUS

The moon lit up, for another shot
Can never close my eyes
'cause my time is passing by
But I'll go on for sure
Never needed more than this
But my heart is getting tired
CHORUS

Can you save me?
The pressures got too tight
Now I'm fallen to the ground
Please someone save me
I've given all I've got
Think I'm losing all my strides

I'll go on for sure, never needed more than this
But my heart is getting tired
Can you save
I'm holding on to you
Now I'm holding on with all I've got
