

Brilliant Sky

Saybia

Brilliant sky nothing has changed
I'm exactly the same as before
We went cruising in a high speed lane
I'm still dreaming of open sky, open road
But grass is not greener on the other side
I know by now 'cause I walked the red carpet and died
There is so much more to life than what meets the eye
We're running wild on the ocean, running wild
Brilliant sky all over
There's a brilliant sky all over, these days, yeah
There's a brilliant sky all over, these days
Hang on, hang on, hang on
And I thought I was safe on this one way crusade

But reality claimed my heart and my friends
Now this is day one in the rest of my life
And I'm feeling all grounded and my spirit is high
And I'm longing for open sky, open road
We're running wild on the ocean, running wild
There's a brilliant sky all over, yeah
There's a brilliant sky all over, these days, yeah
There's a brilliant sky all over, these days, these days
Hang on, hang on
There's a brilliant sky, yeah
There's a brilliant sky
Ooh, we're running wild on the ocean, running wild
