

The Blessing Is On You

Donald Lawrence

(Choir)

The Lord has made a covenant with you
He has promised that He would bless you
You are in the Earth but you live, above the curse
You are kingdom, you have rights
Blessings come with no struggle or fight
So when recession comes you won't be affected
When sickness comes you'll have good health
The dollar may fail your wealth will increase
War all around you'll be at peace.
The Blessing is on you, God's promise to you (twice)

(Lead)

So why do you worry about what's coming next

Before you were born you were destined to live blessed
You are Kingdom, you have rights
Blessings come with no struggle or fight
A Kingdom citizen you are
You are blessed both near and far
So when recession comes, you won't, you won't be affected
Even when sickness comes I guarantee, you'll you'll be in good health
Even when the dollar fails your wealth, your wealth will increase
Even when war's all around yeah you will be at peace.

(Both Choir and Lead)

So when recession comes you won't be affected
When sickness comes you'll have good health
The dollar may fail your wealth will increase
War all around you'll be at peace.
The Blessing is on you, God's promise to you (twice)
