

# Dance With Me

## Tank

Come on, come on

Dance with Me  
Dance with Me  
Dance with Me  
Dance with Me

I'm all into you  
I'm tryina find my way  
The right things to do  
The right things to say  
If it's a movie scene  
What role can I play?  
I got moves with you  
Let's just move this way

Can we feel like this, girl, forever?  
Come on, come on  
Can we do this for the night like we're together?  
Come on, come on  
Everybody in here look like they wanna party  
So come on in with somebody  
So come on in with somebody  
Let's get on all night long  
Let's dance  
I'mma show you enough of good girls  
Let's play this song all night long  
Let's dance, get lost in the music

Right-right, left-left  
Front-back, front-back, front-back  
Spin to the right, to the right  
Dance to the left, to the left  
Hands to the back-front, back-front, back-front  
Spin

You're such stuff  
Keep me in the galaxy  
To be who you are  
And know the world will see

Special girl you are to me  
Can't hold up the bar  
Let's just move our feet, girl

Can we feel like this, girl, forever?  
Come on, come on  
Can we do this for the night like we're together?  
Come on, come on

Everybody in here look like they wanna party  
So come on in with somebody  
So come on in with somebody  
Let's get on all night long  
Let's dance

I'mma show you enough of good girls  
Let's play this song all night long  
Let's dance, get lost in the music

You ready?  
Get your feet on the floor

Right-right, left-left  
Front-back, front-back, front-back  
Spin to the right, to the right  
Dance to the left, to the left  
Hands to the back-front, back-front, back-front  
Spin

The fellows do it better than the ladies  
That's what they told me  
The fellows do it better than the ladies  
That's what they told me  
The ladies do it better than the fellows  
That's what they told me  
The ladies do it better than the fellows  
That's what they told me

Can we feel like this, girl, forever?  
Come on, come on  
Can we do this for the night like we're together?  
Come on, come on

Everybody in here look like they wanna party  
So come on in with somebody  
So come on in with somebody

Let's get on all night long

Let's dance

I'mma show you enough of good girls

Let's play this song all night long

Let's dance, get lost in the music

You ready?

Get your feet on the floor

Right-right, left-left

Front-back, front-back, front-back

Spin to the right, to the right

Dance to the left, to the left

Hands to the back-front, back-front, back-front

Spin

Dance with me

Dance with me

Dance with me

---
