

# Eyes In the Sky

## Exciter

Piercing thru the darkness  
Hiding in the day  
Looking for the answers  
'Cause there ain't no other way  
Burning in the night time  
To find the hidden clues  
Tracking the suspected

Metal eyes are all on youWhat's the score, who's ahead  
Gonna wind up dead  
What's the cause, who's to blame

It's a crazy game, one crazy gameLook to the starlight  
There'll be eyes in the sky  
Out of the darkness

Feel the eyes in the skyDigitizing circuits  
Trace a secret path  
Staring down the barrel  
To explode oncoming wrath  
Terrifying madness  
A suicidal view  
Sinking in oppression

There is nothing left to doWhat's the score, who's ahead  
Gonna wind up dead  
What's the cause, who's to blame

It's a crazy game, one crazy gameLook to the starlight  
There'll be eyes in the sky  
Out of the darkness

Feel the eyes in the skyWhat's the score, who's ahead  
Gonna wind up dead  
What's the cause, who's to blame

It's a crazy game, one crazy gameLook to the starlight  
There'll be eyes in the sky  
Out of the darkness

Feel the eyes in the skyWhat's the score, who's ahead  
Gonna wind up dead  
What's the cause, who's to blame

It's a crazy game, one crazy gameLook to the starlight  
There'll be eyes in the sky  
Out of the darkness

Feel the eyes in the skyLook to the starlight

There'll be eyes in the sky
