

Pungent Excruciation

Carcass

Sanguinary disinterment
Necrobiotic rash
Gnawing, throbbing anguish
The gullet is now mashed Pungent excruciation
Flesh mummified by lice
Amputated contusion
Help yourself to a slice Contamination
Strangulation
Mutilation Gangrenous abscesses
Paralysis sets in
More carnage and bloodshed
And the reek of molten skin Frenzied detruncation
Dispeptic, charred and black
Terminal putrescence
Psychotics carve and hack Osteoporosis releases deadly secretions
As the clotted parasites devour the excretion
Emanation, suppuration, blood starts to gush
My nocturnal dysentery is unleashed on this mush
