

Time's Up

Golden Earring

We've been friends for a long term run
Shared the goods and we shared the fun
But it's true that nobody knows
And no one can tell Why in heaven do these moments come
Yeah, who in heaven lets these moments come
When the truth gets twisted
And somebody's ringin' hell's bell Yeah, we've seen some high times
And it's too bad, one's always sad
You got 10 seconds, baby, and then I'm gone, gone
Gimme one reason for stayin' home Time's up, I hope you make a million
And have a lot of pretty children
But this is my song
Gotta say so long I'm always hopin' for the best in life
I try to put it right between my lines
But somehow you been missin' the clues
And you got me feelin' used Yeah, we've seen some high times
There's more to come, where they come from
You got 10 seconds, baby, and then I'm gone
Gimme one reason for hangin' on Time's up, I hope you make a million
And have a lot of pretty children
And this is my song
Tonight I gotta say so long Time's up, I hope you get the picture
For your case there ain't no cure
I'll be free and you'll be fine Time's up, I hope you make a million
And have a lot of pretty children
But this is my song
Gotta say so long Time's up, so long, bye, bye
Time's up
