

# Suffocate

## Sevendust

Hate all the blood on my hands  
And the sins that bleed from my soul  
Take, I take it all away make it go awayStand up for bein'  
The last one to control  
What you're seeing  
It starts from me  
And the last to knowStand up for bein'  
The last one to control  
But what you can't see is bein'  
The last one to knowFade into a dream  
Try and save me from myself now  
Save me from myself nowFallen from the world  
If I could ever breathe in the air  
Maybe then I wouldn't suffocateFace all the things that were  
Real to me long ago to save my  
Name, I never thought it would  
Be such a long way to fallStand up for bein'  
The last one to control  
What you're seeing  
It starts from me  
And the last to knowStand up for bein'  
The last one to control  
But what you can't see is bein'  
The last one to knowFade into a dream  
Try and save me from myself now  
Save me from myself nowFallen from the world  
If I could ever breathe in the air  
Maybe then I wouldn't suffocateFade into a dream  
See me from myself  
See me from myselfFade into a dream  
Try and save me from myself now  
Save me from myself nowFallen from the world  
If I could ever breathe in the air  
Maybe then I wouldn't suffocateStand up for bein'  
The last one  
Stand up for bein'  
The last one to fall  
Stand up for bein'  
The last one
