You're Not Good Enough

Blood Orange

Deep in the play
I see you as you are looking over
Friends in my way
You never could have been a good lover
Watch what you say
Could never mean a word and still hurt you
Look the other way
Please tell me that I am wrong
So wrongI never was in love
You know that you were never good enough
Fall asleep right next to me
You know that you were never good enough49 days
Surely I should be feeling a whole lot better
Ways and ways and ways and ways E.T.C.
You keep on coming back
I keep letting you inI never was in love
You know that you were never good enough
Fall asleep right next to me
You know that you were never good enoughI never was in love
You know that you were never good enough
Fall asleep right next to me
You know that you were never good enough
