

My Old Mind

The Thieves

Smile, Im in the wild, in fact Im lost, A widows smile. Hope, it dont mean a thing, when a life, brought you
everything

Give me the time I need, give me the smile I bleed, give me the hope I believed made me real Give me a twist of
time, give me the family line, bring me back, and make me real Faith, turned me to grey, cut my hair, walk me
away, in my head, there is a man, and with his match, he burns me down Why did I pay to loose, how did I get
so bruised, self-infliction watching over me, why do I falter now, why cant I work this out, I burn every bridge
that ever stood over me Colors fade with time, and it leads to the light, have I lost, my old mind Can I turn this
back will you lead this track will you give me, my old mind
Colors fade with time, and it leads to the light, have I lost, my old mind.
