

The (After) Life Of The Party

Fall Out Boy

I'm a stitch away
From making it
And a scar away
From falling apart, apart
Blood cells pixelate
And the eyes dilate
And the full moon pills
Got me out on the street at night
Cut it loose
Watch you work the room
Cut it loose
Watch you work the room
Cut it loose
Watch you work the room
Cut it loose
Watch you work the room
Put love on hold
Young Hollywood
'Cuz on the other line
A nose runs ruby red
Death's in a double bed
Singing songs that could only catch
The ear of the desperate
Cut it loose
Watch you work the room
Cut it loose
Watch you work the room
Cut it loose
Watch you work the room
Cut it loose
Watch you work the room
I'm a stitch away
From making it
And a scar away
From falling apart, apart
The blood cells pixelate
And the eyes dilate
Kiss away young thrills and kills
On the mouths of all my friends
Cut it loose
Watch you work the room
Loose
Watch you work the room
Cut it loose
Watch you work the room
I'm a stitch away
