

Somewhere

Bread of Stone

Somewhere out there
In a foreign land
In a place where angels
Can see Your face

Somewhere out there
In a space of thoughts
I'm longing for
The One I love

CHORUS:

Somewhere out there I'll see You again
In a foreign land I'll see Your face
Someday somehow I'll be at Your side
And I won't be the same again

Somewhere out there
In this mass parade
There's a heart that yearns
For Your return

Hallelujah when I see Your glory shine on me
Hallelujah when I see Your face for the first time

Somewhere out there
On a narrow road
The journey ends
In Your embrace
