Good Night Good Morning

Beth Ditto

Are you listening very carefully
Close your eyes and come with me
To go where the evening comes undone
Late at night in the city streets
I feel the need to see the streets
I go where you'll always find someone yeah

Is it good night, is it good morning
Is this real life, are you performing
You're like a vision I can't control
We're in a movie I'm playing a role

I can be by myself sometimes
But I won't be by myself tonight

The sun comes out and suddenly
Something's happening inside of me
I wanna now where the silence has come from

Is it good night, is it good morning
Is this real life, are you performing
You're like a vision I can't control
We're in a movie I'm playing a role

I can be by myself sometimes
But I won't be by myself tonight

I can be by myself sometimes
But I won't be by myself tonight

Oh no
Oh no
Oh no
Oh no

Oh no
Oh no
Oh no
Oh no

Good night, good morning
Good night, good morning
Good night, good morning
