

# The Universe Listened

[Melissa Etheridge](#)

We do our best, we stay in step  
As time goes marching by  
But there's something wrong  
We don't start living until we almost die Oh, yeah, yeah, yeah  
And the universe listens Well, I was born, the silver thorn  
On a Midwest rose  
I found out fast love is last  
And it comes and goes I made a deal, hearts to steal  
They will know my name  
I'll pay the price, any price  
Just give me the fame Oh, yeah, yeah, yeah  
And the universe listened A perfect song, my love is wrong  
So I ache the dark  
A hero's close, the story goes on  
But I hate the part I chose to fall, destroy it all  
But I will rise again  
I believe in love, please send me love  
And I will try again Oh, yeah, yeah, yeah  
And the universe listened  
Oh, yeah, yeah, yeah  
And the universe listened Remove the dark, peel my heart  
Make my body whole  
I found my angels, found my spirit  
Yes, I found my soul Teach me how, show me now  
This light has taken me  
I'm not ashamed, help me explain  
This awakening Oh, yeah, yeah, yeah  
And the universe listened  
Oh, yeah, yeah, yeah  
And the universe listened Oh, yeah
