

# Young Girl In Love

## Night Ranger

I called you up to tell you  
I'm about to lose my mind  
I've tried my best to reach you  
Oh so many times  
Carrie, I tell you true girl  
You've got me collared, I've been cuffed  
You've got a hold on me and I can't get loose  
You know I need you so much  
And now I hear that you've been cryin'  
Well you can come cryin' to me  
'Cause I don't want to see you dyin'  
Or read your diary  
Young girl in love  
Make up your mind you're freezin' all of my time  
Young girl in love  
I've become so attached, will it last?  
Young girl in love  
So you found yourself a lover  
No more nights of loneliness  
You gave them all you had to give  
With a touch and a tender kiss  
Then you found yourself in trouble  
It was love or so it seemed  
Then he turned his head and walked away  
Left you hangin' by your dreams  
And now I hear that you've been cryin'  
Well you can come cryin' to me  
And I don't want to see you dyin'  
Or read your diary  
Young girl in love  
Make up your mind you're freezin' all of my time  
Young girl in love  
I've become so attached, will it last?  
Young girl in love  
I understand the troubles  
That occur inside your mind  
(You can come cryin' to me)  
I understand, oh, I understand  
The pressure in your precious little mind

Young girl in love  
Oh, make up your mind you're freezin' all of my time  
Young girl in love  
I've become so attached, will it last?  
Young girl in love  
Oh, make up your mind  
Stop wastin' my time  
Young girl in love  
I've become so attached, will it last?  
Young girl in love  
(Young girl, young girl, young girl, in love)  
Young girl in love  
(Young girl, young girl, young girl, in love)  
Young girl in love
