

# A Good Deal

## Eels

My plan to play it cool  
Has not been going well  
I have such a hard time  
Keeping the anger hidden I've run it through my head  
A dozen times or more  
And each time it ends with me  
Not acting as I did A grievous oversight that I cannot erase  
You couldn't know where to take it to  
And none of it matters now  
However I appeal  
All of it's gone  
I've missed a good deal  
You disappointed me  
In ways I cannot count  
But you were the best thing  
To happen to me And that is no reason to  
Forget all that you've done  
I couldn't expect you to  
Give credence to my plea A grievous oversight that I cannot erase  
You couldn't know where to take it to  
And none of it matters now  
However I may feel  
All of it's gone  
I've missed a good deal An effortless beauty I had not come across  
It's a heavy loss  
And now it's my cross to bear forever more  
I can be sure  
And nothing else matters now  
Whatever I reveal  
All of it's gone  
I've missed a good deal
