

Madness (feat. Doble Alma)

Calum

i feel that i can never do
there is nothing that compares to you
it's killing me.....

i walk down to the streets going downtown
and i can see the faces of these people in those places
do they have a life?, do they have a soul? NO
IT looks like as if they don't care
.... somebody....

I just can't believe what i'm seeing through my eyes now
people don't realize there are people crying right now crying right now
sing it out loud now

chorus

yo yo, i turn on the TV, there is only boring sadness
i can't believe how we made all this madness.
i'm expressing myself, i rap again
why the hell people don't make a difference
i wanna change the world, i wanna change the rules, i wanna change the schools,
because i'm not in the mood.
